

Product Profiles: Structured Water - Dynamically Enhanced (DE)

Take control of your water supply and change it for the better utilizing any of the DE line of structured water products.

What is Structured Water?

Found in nature, in the moving waters of streams and rivers, waterfalls and ocean waves, water in motion becomes “structured,” freed of memory and pH balanced, its main contingent, pure life force energy right down to the water molecule itself. The water molecule has the power, the individual mandate to protect life, and that is to protect it from the things that are adverse to life and to generously provide the things that are good for life.

Water makes up a large percentage of our bodies and like a crystal, water holds memory. If you think about it, the water we drink, dine and bath in has been on this planet since the Beginning of Time. It has picked up a lot of frequencies along its journey to consumers today, from the parting of the Red Sea and Jesus walking on the Sea of Galilee, to those of every war ever fought and all the miseries humanity has ever endured.

Adverse frequencies in water affect the cells of our body and our intellectual capabilities. The benefits of removing negative memories from our water are that it facilitates our cleansing, and provides better nutrition and hydration, just for starters. Be ready to share your stories of the good that comes from using DE structured water products.

What is Dynamically Enhanced (DE) Structured Water?

Within the flow form, all natural mineral elements generate an ion effect when water dances across it. Tests show the water molecule’s bio-photonic (the light emitted by living things) energy level is increased. It is living water containing sacred and health-giving frequencies. When you add structuring to your Dynamically Enhanced units’ extra charge of energy, you get an exponential outcome.

Below are DE units that serve all applications. They are lifetime-guaranteed and come with a 90-day money back guarantee, 100% satisfaction. Never wears out (no moving parts).

Discount prices on all units.

<p>DE Portable</p> 	<p>Easiest way to structure water:</p> <ul style="list-style-type: none"> • At home • Out and about • Restaurants • On the road traveling <p>Recommended for rental living (where DE Whole House not an option)</p> <p>Most popular DE purchase:</p> <ul style="list-style-type: none"> • For one’s personal use • Each floor of your home • Perfect gift <p>Easy to clean and maintain (no moving parts)</p> <p>Dishwasher safe</p>	<p>Benefits-DE Portable:</p> <ol style="list-style-type: none"> 1.
